Making positive change possible *and* mobile friendly.

Changing the world for the better starts by spreading knowledge, compassion and tolerance—person by person, day by day. STOPit, endorsed by GuideOne, can help you do just that.

What is STOPit?

STOPit is a simple mobile and web app that allows students to anonymously and confidently report incidents to administration. It is proven to help schools across the country and around the world address and prevent pervasive issues. Better yet, STOPit is provided to GuideOne members at a reduced rate!

Track, manage and resolve issues.

The STOPit comprehensive incident management system, DOCUMENTit, provides powerful investigative tools so that you can resolve issues quickly:

- Follow up with incident submitters via STOPit Messenger
- Store evidence securely in the Cloud
- Sort actionable data in built-in dashboard
- Review time- and date-stamped audit trail of all investigative activity

STOPit benefits everyone:

- Reduce your workload as a result of STOPit's deterrent effect
- Address problems before they spiral out of control
- Automate regulatory compliance and risk mitigation

Sign up today.

We share your belief that creating an educated, knowledgeable society leads to a better world—and a safer school system.

Sign up for STOPit at stopitsolutions.com/guideone-insurance and start spreading positive change.
